

2010

Golf Outing

Please help us make a big
SPLASH
to benefit

LIPSA's water safety initiative is educating kindergarten children and their parents in the rules of water safety. Encouraging the ability to swim is the most effective way to prevent drowning and thus preserve our most valuable resources – our children. Through your support we doubled the number of kids we reached this year, and eventually hope to reach all of Long Island when we secure additional funding through events such as this year's golf outing. Visit our web site www.longislandchapter.org to see photos of the program in action!
